

CASTLES  
IN THE GLADES

By Marie B. Wallace

Well, "next" happened to be Papa and Mama Raines, with a teen son to add to their family. Stopped in to see him and his poor mother at the Cleveland hospital Monday, and found both looking chipper and happy. The baby has exactly the same contemplative and inscrutable expression that Raines assumes when I try to pump information for the Kollum out of him, and it's a toss-up whether the baby or Raines is the more uncommunicative. Mrs. Raines is hoping to move directly from the hospital to her new home in Uncle Sam's "white quarters."

Labor Day, Pop and I went out to the Wetlands, hopping nimbly like mountain goats along the levee for about a mile from Moore Haven to the dredge. I bet that trip took a half-inch off each hip for me. The Wetlands is going steadily along with her 100 feet levee thrown up every day or so, no rock; and she's sure putting out some big shoulders. She built 2,600 lineal feet of levee last month, which is a record by any means, but was mighty good work for the hard work in which she's digging.

As usual, Captain King made us heartily welcome, and we had a very pleasant visit. In a little over eight months, the Wetlands has built about five miles of levee. The landside of the levee is being planted with a drought-resistant "green grass is growing all around" where soda has been killed. I still must admit that the hydraulic type levee has all over the dragline type for beauty of proportion.

I asked the cook on the Wetlands for his recipe for baked corn. It is most delicious. So here is how you make it, with the dragline type. Ralph Maxwell to the Kollum: 1 can of golden Bantam's 1 cup corn. 1 cup butter. 1 cup sugar. Salt and pepper to taste. Mix a small can evaporated milk and 1-2 cup water or fresh milk, mixed.

Combine the milk, beaten eggs, melted butter and seasonings, pour over the corn, and bake in a buttered pan, very slowly, until firm, but no longer.

Next week I'll give you the favorite recipe of the Gulfport cook. She leads up to the subject of the subject of the subject. She has been doing splendid work this week, better than any other levee building is being encountered, and from the 27th to the 3rd she put up, so it stayed, 459 feet of levee, that is, in the Gulfport, 93,450 cubic yards of earth, or 21,292 cubic yards to the 100 foot station. Yet the Gulfport levee contains considerably more port levee to the station than the Wetlands, and in the Gulfport, the material in any station section varies with the ground conditions, the object being to build up to elevation; in some places this may take as little as 5000 cubic yards to the station. So it manifestly unfair to consider only the advance made in a given time in judging the performance of the levee construction. I mention this for the benefit of those who think that the Gulfport is making slow progress.

Dredge Boat America is looking forward with much interest to the arrival of the General, scheduled for the fifteenth of this month, but she will probably not get here before the first of October. When she does arrive in Lake, she will be boarded up on the sides to keep the waves from washing over her low decks, and this extra lifting is called "cushioning." Believe it or not.

There is a new Associate Engineer on the job, Mr. Ingalls, from the New Orleans office, who is to take, I hope, the place left vacant by Mr. Morton's death. I suppose he will wear watch, "Don't blame me—that's Pops' speaking."

The Bryans and Holloway dredge burns four-foot oil. Well, I didn't either. But that's what they call coal.

The gates are up at Canal Point. Now comes the riveting work, which is ready for the start. The new hospital has been started on August 21.

There are 45 private rooms maintained in the hospital along with the splendidly equipped operating room. The X-ray room is thoroughly equipped with modern instruments. New laboratory equipment has been ordered and will soon be placed in the new institution.

Mrs. Bates recently took over the operation of the institution from Dr. Simmons and Arthur Wells, who had leased the Douglas building on the south side of Avenue

# Contracts Are Signed for \$800,000 Pahokee Water System

## A Cross-State Canal Via Lake Okeechobee

### Congressman Heads Delegation on Inspection Trip Lake Okeechobee Flood Control Project—Is Laudatory About Way In Which Work Is Being Carried Out.

Congressman J. Mark Wilcox and Major B. C. Dunn, United States District Engineer of Jacksonville, headed an inspection party which toured the Lake Okeechobee region yesterday and viewed actual construction work being carried out on the Okeechobee flood control project.

It was the congressman's first visit to the scene of the construction although he has made many trips into the Everglades. He was highly laudatory in his remarks about the regular work which is being carried out. "Gigantic," was the word Mr. Wilcox used in describing the work which is partially the fruit of his labors in Washington.

The inspection party was composed of Congressman Wilcox, Major Dunn, Mr. Gibbs of the Gibbs Shipbuilding Company in Jacksonville, W. Terry Gibbs, attorney for the Port of Palm Beach; L. R. Bishop, commissioner of the Port of Palm Beach; George Brockway, engineer for the Port of Palm Beach; Lieut. Seeley, connected with the engineering office of Cleveland Lake Boyd, county engineer of Palm Beach county and a member of the Okeechobee Flood Control Board; and J. Mark Wilcox, Jr., of West Palm Beach.

The party arrived in Canal Point shortly before noon and viewed construction of the hurricane gate. Mr. Wilcox was very much impressed with the massiveness of the structure and the precision with which it had been built in order to work perfectly. He stated that it was a real sight to visit the Okeechobee section and see actual construction after spending months and months in Washington working to get funds with which to do the work. The ultimate outcome of this work is a cross-state canal via Lake Okeechobee and through the Caloosahatchee to the Gulf of Mexico. Mr. Wilcox expressed hope that this canal would eventually become a reality and could be a reason why it should not be completed.

Following inspection of the Canal Point gate the party left to visit the Gulfport before going to the offices of the Engineers in Cleveland.

### HOSPITAL EQUIPPED TO SERVE GLADES

### Belle Glade Institution Equipped To Render Efficient Service

Modern hospitalization in the Everglades now is a reality, with the opening of the Belle Glade Hospital in the Douglas Apartment building at the intersection of the new road in the office of Dr. S. J. Simmons.

Mrs. Bates is a registered nurse, graduate of the Monroe General Hospital at Ocala, and has had considerable experience in her work. She states that all equipment necessary for conducting a modern hospital has been installed and is ready for service. The new hospital received its first patient on August 21.

There are 45 private rooms maintained in the hospital along with the splendidly equipped operating room. The X-ray room is thoroughly equipped with modern instruments. New laboratory equipment has been ordered and will soon be placed in the new institution.

Mrs. Bates recently took over the operation of the institution from Dr. Simmons and Arthur Wells, who had leased the Douglas building on the south side of Avenue

### HURRICANE GATE AT CANAL POINT TO BE COMPLETE IN 4 WEEKS

### Twin Gates Are Up and Riveting Will Start Immediately

The hurricane gate at Canal Point should be a finished structure within the next four weeks, it plans now contemplated are executed without delay. The twin gates will be placed and within a few days the sound of riveting hammers will be heard.

Completion of fabrication of the gate is the order of the day at the scene of action now, since it was impossible to assemble such large structures at the factory. Each gate weighs 100 tons and the embedded steel which anchors the gates to the foundation weighs 40 tons.

### SOUTH BAY WOMAN CHOSEN ASST AGENT

### Mrs. Eunice F. Gay Becomes Assistant Demonstration Agent

Mrs. Eunice F. Gay has accepted a position as assistant demonstration agent of the Home Economics Department of Palm Beach County and will aid Mrs. Edith of Burrus, County Demonstration Agent, with the regular club work leaving Mrs. Burrus free to devote much of her time to the rehabilitation program sponsored by the FEHA which has been added to the regular work of the Home Economics Department. It is understood that the FEHA funds are used for the salary of the assistant in Palm Beach County, as well as other counties of the state since it is manifestly impossible for the regular work to go with this added burden of rehabilitation, without assistance.

### George C. McLarty In Charge and Ready to Render Service

George C. McLarty, of Pahokee, has been appointed to take the place of Mr. McLarty in this section and has necessary qualifications for the position. Applications. All those interested are requested to get in touch with Mr. McLarty for full information. The Emergency Crop Loan office will grant loans not to exceed \$250, but will be necessary to the Production Credit Association. If the Production Credit Association rejects the application, then the Emergency Crop Loan office will take the application under consideration. The Emergency Crop Loan office grants loans from \$10 to \$250, but when the amount exceeds \$150, it will be necessary to follow the procedure outlined above.

The applications for loans should be returned to the committee before Sept. 10, as loans are discontinued Sept. 15.

### Pahokee Rotarians Have Routine Meeting

The Rotary club of Pahokee met in its regular weekly meeting Thursday and transacted routine business. A. Dobrow, new club president, who has returned to Pahokee after two months in the north, attended his first meeting since he was elected president.

Members were jubilant over the fact that there was 100 percent attendance yesterday.

### Elijah A. Johnson Dies At Home In Belle Glade

Elijah A. Johnson, 58, died at his home in Belle Glade Tuesday after suffering from heart trouble. The body was prepared for burial by the Everglades Funeral Home and shipped to Bowling Green, Fla. for burial.

### All Communications Must Have Writer's Name Signed To Them

In the future the Everglades News will maintain a regular column of correspondence known as "Open Forum" and will be found on the editorial page of the NEWS. It is necessary that all communications intended for publication in this column be signed by the writer.

The name of the writer will, at all times, be signed to the article appearing in the paper unless otherwise directed. However, it is necessary that the writer sign the article when sent to the NEWS office in order that we may have the name of the writer for our files.

### REGISTRATION BOOKS ARE SENT TO PRECINCTS

### Books Will Be Open For Registration Until Sat., October 13th

Registration books have been sent to the various precincts of the county by J. L. Grier, supervisor of registration, according to an announcement from his office on Wednesday of this week. The books will be open for registration until Saturday, October 13. The books will be open in the following places in the Lake section: Precinct 33, store, Loxahatchee farm, near the Orange grove. Precinct 35, store, Canal Point. Precinct 36, York's store, Ira York.

Precinct 33, Riedel's office, C. E. Riedel. Precinct 39, Denton's store, South Bay, Gladys Mitchell. Precinct 40, Bowen's store, Lake Harbor. Precinct 41, Shawano, Brown's Farm, J. L. Murphy.

### MEETING FOR ORGANIZATION Will Be Held In Belle Glade Soon

Ralph Studebaker, Recreational Director of Palm Beach County, is arranging tentatively for a joint meeting of the organization of the Professional Women's Club were hostesses Tuesday evening to members of the Lake Water Club at a dinner and meeting in the Hotel Dixie in Pahokee.

### Dinner and Meeting Held In Dixie Hotel Dining Room In Pahokee

Members of the research committee of the Everglades National Park, Professional Women's Club were hostesses Tuesday evening to members of the Lake Water Club at a dinner and meeting in the Hotel Dixie in Pahokee.

Mrs. Blackmon, president of the Everglades club, opened the program and the Club Council was given by Miss Elsie Barfield, and Mrs. Blackmon on the program. The dinner was given by Mrs. Blackmon, accompanied by the crocheting ladies by Miss Williams; short reports by Mrs. Ora W. Knott, Mrs. Clara Kay, Mrs. Mary Svenson, Mrs. Mary Champey of the Lake Water Club; Mrs. J. K. Enlist, president of the Canal Point Women's club, and Mrs. J. R. York, visitors; and Mrs. Blackmon, Mrs. Blackmon, Mrs. Mary Morris, Miss Sadie Todd, of the Everglades club.

### New Cafe Opened In Pahokee Wednesday

Gil's Restaurant is open and ready for business in Pahokee. Equipment was moved in, repairs made on the building, and the cafe opened for business on Wednesday morning of this week.

G. H. Gilberstadt associated with M. A. Burke in the operation of the new restaurant and they are the proprietors of this new up-to-the-minute service. Regular meals, short orders and lunch as well as featured at the new establishment.

Messrs. Gilberstadt and Burke have both had many years experience in the restaurant business and are thoroughly equipped to render efficient service.

### PLANTING ABOUT TEN DAYS AHEAD REGULAR SCHEDULE IN GLADES

### Approximately 1800 Acres Beans Already Planted; 10 Percent Are Limas

Approximately 1800 acres of beans are planted in the immediate lake section, though less than 10 per cent of them being limas, according to authorities. The crop this season is nearly 10 days ahead of last year, it was stated.

A rain, general throughout the lake region, came Tuesday afternoon and stopped activity for 24 hours, but once again farmers are busily engaged putting their seed in the soil. In some lowlands it is still too wet for planting but these farmers believe that they will be able to market their crops as early as they did last year.

During the past 48 hours farmers have been turning themselves out at night as the farmers take advantage of the cessation of rain to make their land ready for planting. Optimism prevails throughout the farming section adjacent to the lake, because of the fact that the farmers were not downhearted over the unknown outcome of the Cuban tariff. Most of the crops are now in the ground and are going ahead with a dogged determination to produce a quality crop of vegetables.

### SIMON CHILD DIES

Mary Jean, daughter of Mr. and Mrs. W. H. Simon, of Leesburg, died Aug. 17. She was just 10 months old. Burial was made in the Lake Oak cemetery in Leesburg.

### RECREATION CLUBS ARE TO BE ORGANIZED

These play groups have been organized in West Palm Beach and are growing very popular and highly satisfactory from every standpoint. Residents are urged to watch for the date of this meeting and arrange to be present as the more enthusiasm shown at the initial meeting, the more quickly the groups can be organized and start to work.

### Meeting For Organization Will Be Held In Belle Glade Soon

These play groups have been organized in West Palm Beach and are growing very popular and highly satisfactory from every standpoint. Residents are urged to watch for the date of this meeting and arrange to be present as the more enthusiasm shown at the initial meeting, the more quickly the groups can be organized and start to work.

It is understood that, if there is a demand for such recreational facilities as are to be offered, play groups will be organized for different ages of children, young people and adults including competitive games and sports. Thus everyone in every community will find some form of entertainment of interest in this line.

### New Cafe Opened In Pahokee Wednesday

Gil's Restaurant is open and ready for business in Pahokee. Equipment was moved in, repairs made on the building, and the cafe opened for business on Wednesday morning of this week.

G. H. Gilberstadt associated with M. A. Burke in the operation of the new restaurant and they are the proprietors of this new up-to-the-minute service. Regular meals, short orders and lunch as well as featured at the new establishment.

Messrs. Gilberstadt and Burke have both had many years experience in the restaurant business and are thoroughly equipped to render efficient service.

### Mayor H. Roy Lang and City Clerk W. P. Walker of Pahokee Sign Contracts In West Palm Beach Wednesday.—Only the Approval of Contractors' Bonds By J. A. Cotton, PWA Engineer In Tallahassee, Remains Before Actual Construction.

### CONGRESSMEN WILL VISIT EVERGLADES WITH MARK WILCOX

Congressman J. Mark Wilcox while in Canal Point yesterday stated that he had invited Congressman Duncan and Inhof of Missouri, Congressman Harter of Ohio and Congressman Weideman of Michigan to visit the Everglades region of November and the first week in December. At this time Mr. Wilcox will bring these gentlemen to the Lake Okeechobee region and allow them to view the flood control program under execution.

### PLAN FOR R.P.O.E. PAHOKEE FIRST YEAR

### 100 Have Signed Petition Showing Intention of Joining New Lodge

If all plans materialize, Pahokee will have a new Benevolent and Protective Order of Elks unit by the first of the year, according to J. L. Kerr, who is working cooperatively with several former Elks in an effort to execute plans for organization.

Mr. Kerr has been an Elks since 1906 and is a member of Elks Oil City, Pa., lodge for years, before coming to Florida to make his home. He states that there is a possibility of having a class of 100 signed up before the first of the year when it is planned to have the charter granted. 100 have already signed.

### FISHING CONTEST CLOSES MONDAY

The fishing contest, conducted during the summer by Denton's Hardware Store in Pahokee, will close at a close at midnight, Sept. 10. Mr. Denton states that since only a few days remain in which to enter fish that lovers of the piscatorial pastime should make the best of the few days left.

To date, according to the register, it looks like Mr. Lang of the Roy Lang of Pahokee, is going to be the winner of first prize—\$15.75. The fish weighing 10 pounds 14 ounces. Mr. Lang has, however, the mayor is not saying a word about the matter at this particular time and is waiting patiently for the contest to close.

### Death Came After 7 Weeks Illness—Was Beloved Christian Character

Mrs. Nettie Rebecca Marston, wife of J. J. Marston of Belle Glade, died at her home on Saturday, Sept. 1, after an illness of seven weeks. Mrs. Marston was a devoted Christian and a very ardent worker in the First Baptist Church of Belle Glade, the church of her husband. She was a member of the Bible School. She will be greatly missed in the community where she has resided for the past four years.

The deceased was born August 17, 1886, in Geneva, Ala. She was married to J. J. Marston in 1904. She was survived by her husband, J. J. Marston, a two daughter, Mrs. R. G. Austin of Lynn, Mass., Mrs. J. F. Fife of Belle Glade, Fla., three sons, Henry Clay Hinton, Philip Hinton and William Berry Hinton, all of Belle Glade, Fla., two grandchildren, Mrs. Myra Austin, and Lou Ellen Fife, and a son, Mr. J. J. Marston, Jr., of Valdosta, Ga., and a brother, J. W. Brooks, of Samspon, Ala.

### Funeral Services Will Be Held Monday at the Belle Glade Baptist Church and Burial Was Made in the Lake Water Cemetery.

Funeral services will be held Monday at the Belle Glade Baptist church and burial was made in the Lake Water cemetery.

Black-jack is the name given by miners to zinc sulphide or blende, which is of black color.

## AS OTHER EDITORS SEE IT

**Wauchula Herald:** The Millage made ground in each county of Florida and tax payers will be at the next gridding.

**Pt. Myers News-Press:** I own everything to advertising, says Sally Rand. Yeah, and display ads, too. At that—Stark's Telegraph. With plenty of white space.

**Aracida Arcadian:** And the women are chuckling because it is a man, Donald Campbell, Ohio truck-driver, who is talking himself to death. But just wait until the paragraphs take it up and emphasize the fact it is himself he is talking to death.

**Bowling Green Exponent:** This is a funny world, and it will not matter what you do. If the government is too liberal they say it is wasteful and if it is cautious they say there is too much tape.

**Aracida Arcadian:** Fuel costs says an Arcadian, will be lowered at least 90 per cent if an Italian inventor, his name is forgotten, making auto fuel from charcoal. Does the Italian inventor's method provide for a suspension of 90 per cent of the state and federal taxes on auto fuel?

**Selberg News:** We do not wish to appear sarcastic but we wish some one would tell us why a guy will pay gold money to deliver a speech over the radio and then make copies of it to newspapers with the request that they publish it free. It can reach the people through the radio why send it to the papers and to not why not send it to the papers in the first place with a check? We doubt if there is a person in the United States that has a radio that does not subscribe to one or more newspapers.

**Punta Gorda Herald:** Most housewives who read it probably get a good laugh out of the Port magazine article in which the author said that "every woman should spend at least 20 minutes each morning in beautiful exercise." After the average woman gets through sweeping, dish-washing, ironing, scrubbing, mopping, bed-making and a few other such things, she thinks she's lucky if she can sit down for 10 minutes of rest.

**Miami News:** Florida has been crucified to make a Cuban holiday, according to the Port Myers News-Press view on the reciprocal tariff reduction treaty with the island republic. Not only that, the paper asserts, but Florida seems to be the only one of the southern vegetable growing states that will suffer, with the amount to be determined by bitter experience.

**Lake Worth Herald:** Times are getting better. Florida counties that tried "recommending" a year ago by laying off their county agents and home demonstration agents are taking the luck again now. Volusia and St. Lucie counties recently resumed demonstration work. Palm Beach county wisely has held on to its agents, figuring that the harder the times the greater the need for the agents and the valuable assistance they give.

**Avon Park Times:** A determined fight is being made by the so-called big interests on the honest trade exemption amendment. Especially so in the larger centers, where most of the daily papers are opposing the amendment. Their reasons may be good and sufficient, but Mr. and Mrs. Florida Cracker, with their little home in town and country are going to carry the amendment by just about a two to one vote. So prepare yourself for the shock, if any.

**THE CUBAN AGREEMENT**  
**Edmond Ledger:** If the tariff agreement with Cuba was not expected to cut both ways, it would not have been signed. That's logical. That it will affect Florida's fruit and vegetable industry should be accepted as a matter of course. Just how much the state will be injured remains to be determined after the program has been tried out.

There will be other trade agreements with other nations. Their object of course is to cause commerce to flow between the contracting parties in greater volume. There must be yielding here if there is yielding in other lands.

But if the agreements result in greater prosperity in the United States, without crippling too seriously home industries, the sum total will be helpful. Florida growers will wait for a more thorough analysis of the agreement with Cuba before they become unduly excited. Debate without the facts seems futile.

## OPEN FORUM

The Everglades News is in no way responsible for opinions expressed in this column. It is maintained exclusively for the benefit of our readers.

**West Palm Beach, Sept. 1, 1934**  
Many residents of the Palm Beaches and the Everglades are wondering just why Mr. Gray and the Miami Weather Bureau have decided to "promise that all disturbances in the West Indies or vicinity will be announced as soon as they are located, as has been done in the past."

Do they think they are doing the residents a favor? They are absolutely mistaken. It is no favor but a distinct injury. If these weather reporters could see the haggard, anxious faces peering for days over every available report and map and listening with bated breath to the radio—all for news about some storm that eventually gets lost at sea or turns aside, they would think twice before announcing "all disturbances."

Who in this section wants to hear about any old disturbance for a week ahead of time, that probably won't concern us anyway? What we want is NOT to hear about them. This summer has been a blessed relief from needless strain and anxiety. What is the reason for another change in policy? A change that attracts public notice and criticism to our section?

All means, keep us posted when it means our safety but eliminate the unnecessary horror and suspense. I have seen people have heart attacks and nervous dyspepsia for a week, due to a strain over what NEVER DID concern us.

Do your head, heart and digestion, Mr. Gray, and help to make the lower East Coast as comfortable and pleasant a place to live as possible.

—A LOYAL RESIDENT.

## FUNERAL SERVICES HELD FOR VICTIM OF DROWNING

Funeral services were held yesterday afternoon for J. L. Suss, who died at his home in Canal Point Thursday morning at 2 o'clock. Burial was in Port Mayaca cemetery with the Everglades Funeral Home in charge of arrangements. Rev. J. T. Cole, pastor of the Methodist church of this place officiated.

What's the matter with this family, anyway? Don't they ever

and Sheila," by Joe A. Tolle.

Prayer Meeting, Wednesday, 8

M.

A Strange Family

"The father has never missed

Church or Sunday school in

twenty-three years. The mother

has had a perfect record of eleven

years. A son has not missed for

twelve years. A daughter has been

at the evening service every Sun-

day for eight years.

What's the matter with this

family, anyway? Don't they ever

have company on Sunday to keep

them away from church?

Don't they ever get up tired on

Sunday morning?

Don't they belong to any lodges

where they get their religion in-

stead of at their Father's House,

or to any clubs, or to anything?

Don't they ever have headaches,

or colds, or nervous spells, or

tired feelings, or sudden calls out

of the city, or week-end parties,

or business trips, or picnics or any

other trouble?

Don't they have a radio, so that

they can get some good sermon

from out-of-town preachers?

Don't they ever get a lot more

good out of reading a sermon out

of a book?

Don't they ever get disgusted

with the social Gospel, or what-

ever it is that their minister

preaches?

What's the matter with their

family anyway, and why are they

so happy and cheerful? We leave

it to you to answer."

### CANAL POINT First Baptist Church

Elder B. H. Evers, Pastor

Regular Church Services will be

held every first Saturday after-

noon, Saturday night, Sunday

morning and Sunday night.

Sunday morning services at 11

a. m.

Sunday evening services at 7:30

p. m.

Sunday School at 3:30 p. m.

Preaching or Prayer Meeting

each Sunday night at 7:30 p. m.

Prayer meeting each Wednes-

day night at 7:30 p. m.

Elder B. H. Evers, of Titus,

Fla., will fill the pulpit on each

first Saturday and Sunday and a

hearty invitation is extended to

all to be in attendance at these

meetings.

(NOTE: We desire that every church in Canal Point, Pahokee, Belle Glade and South Bay be represented in this column. In case the editor has missed any pastor in mailing out invitations to furnish material, this is an official invitation and we hope that next week several more pastors will take advantage of this opportunity to place their church before the public. Copy must be in by Wednesday noon.—Ed.)

### PROGRAM RENDERED AT PAHOKEE M. E. CHURCH

The East Beach Singing Class

rendered an interesting program

at the Methodist Church in Pa-

hokee last Thursday night. It

follows:

Song leader—Gene Butler.

Song leader—Mr. Singletary.

Song leader—Mr. Dula.

Quartet—Mr. Baker, Phillips,

Butler, Snyder.

Song leader—Mr. Snyder.

Tri-o—Mr. and Mrs. Singletary,

Mrs. Butler.

Song leader—Ralph Grimes.

Quartet—Henderson Quartet.

Song leader—Olin Cowart.

Quartet—Mr. Butler, Cowart,

Huffstatter.

Song leader—Olin Cowart.

Awaji is the largest island in

the inland sea of Japan.

Ed Don George's middle name is

not Don, as advertised, but Nich-

olas.

MRS. G. J. BARSTOW

## NEW SPILLWAY OPENED

The new spillway has been opened into the main drainage ditch of the South Florida Conservancy District at Lake Harbor, lowering the water table in lateral ditches approximately and adding 3000 acres to the area being drained by that pump.

## P-T-A. COUNCIL MEETS

Members of the Executive Council of the P-T-A. met on Monday afternoon to make plans for the opening activities of the organization this fall, among the first of which will be the Teachers Reception to which all parents and patrons of the school are invited to meet the faculty as special guests of the P-T-A. and the entertainment of the County Council which meets in South Bay during October.

## NEW FILLING STATION

A. O. Walker and C. F. Denton have been hauling rock from the North New River Canal Dike near the pumping plant to fill in the triangular lot formed by the junction of Federal Highway No. 25 and the county road leading to colored town. They will haul the surface fill from the sample ditch side of Cleveland. Plans for a new filling station is being driven and a thoroughly modern, fully equipped station building is being erected and four pumps installed. Mr. Walker stated that when complete, the new filling station will be the finest on the island.

## Jews Will Celebrate In New Year Service

Stores opened by Jews in Pahokee will be closed next Monday and Tuesday in observance of "Rosh Hanannah," the Jewish New Year.

The traditional meaning of the day has come down to the present day from earliest times. At first autumn with the opening of the agricultural year in Palestine.

Later, with the exile of the race from the holy land, the day assumed a new meaning and a higher value in Jewish life. In rabbinic tradition is regarded as the commemoration of the beginning of the creation of the world and the day on which all world creatures pass in review for judgment before the Creator. With the passing of time, emphasis was laid on the New Year as a day for self-examination and reflection on past deeds and sincerely resolve to turn from the misdeeds of the past year.

This idea runs through almost every prayer of the Reform Jewish ritual of the present time.

Fossil coral reefs can be found in the Himalayas which were formed in the ancient "Tethys sea" 240,000,000 years ago.

Mr. and Mrs. H. J. Greene of this firm have just returned from an extensive MARKET TRIP. And our new merchandise is arriving daily, and will continue to arrive from now until October 15.

But YOU CAN'T SEE WITH A GLASS EYE!

Your eyes are two of your most valuable possessions. It doesn't pay to be pennywise with light at the risk of injuring them.

Not one home in ten is really well lighted. And in many homes, children are actually injuring their eyes because they are studying in poor light.

Protect your family's eyes by having the lighting in your home checked with the SIGHT METER. Just phone our nearest office and say, "I would like to have you measure my lighting." This service is free.

This is the SIGHT METER that lets you see for yourself how much light you have and how much you need.
